

Using the AVerVision AF Software on an PC

These steps walk you through the process of how to connect the camera to a computer and use the software to capture pictures, type text and record video.

To use the software:

1. Make sure the camera is in **Camera Mode** and the camera light is green.
2. Connect the doc camera to the computer using the USB cable.

3. On your computer open the AVerVision application (either on the desktop or in the Start>Programs>All Programs)

4. Experiment with the Snapshot, Video recording and Annotation capabilities.
5. For more descriptions see the AVerMedia AVerVision Software (Quick Installation Guide) that came with the document camera. Information about using the application for PC begins on page 3.
